

Why is Dr. Yan Limeng important?

1. Dr. Yan worked in the WHO H5 reference lab in Hong Kong, which is the bridge between WHO and the mainland of China.
2. Dr. Yan was asked by her supervisor Prof. Leo Poon to do the secret investigation into the epidemic in the end of December and in the early January. She got the first-hand information about what was really happening in Wuhan through her network including scientists in CDC in China and frontline doctors.
3. Dr. Yan has MD and PhD degrees; she published articles on Nature, Lancet, mBio, etc. as the first author or co-first author. She's the frontline virologist.

The CCP's cover-up

1. Dr. Yan's friend, a scientist at the CDC in China told her on Dec. 31 about the human-to-human transmission based on the family cluster case.
2. Frontline doctors told her "We can't talk about it, but we need to wear masks".
3. Dr. Yan's supervisor, Leo Poon, who's also a WHO consultant, didn't respond to her report but warned her, "**don't cross the redline.**"
4. Dr. Yan also reported to the director of her lab, Malik Peiris, who is a senior WHO consultant and a top coronavirus expert; he also didn't respond to her. They kept silent.
5. CCP's scientists uploaded a **wrong genome sequence** to NIH GenBank database on January 12, which was extremely rare. (Dr. Yan's husband, also a virologist in the same lab, found this and told her)
6. They replaced the wrong sequence with a correct one on January 14, immediately after the first overseas case appeared in Thailand on January 13.

Where's the SARS COVID-19 from?

1. Dr. Yan found the backbone of the SARS Covid-19 extremely similar to Zhoushan Bat virus (a genome sequence to a virus is like a finger print to a human being)
2. The Zhoushan Bat virus was **discovered and only owned** by the People's Liberation Army. (<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6135831/>)
3. Professor Zhang Yong-zhen's group isolated the virus and found it similar to Zhoushan Bat virus on January 5 (<https://www.ncbi.nlm.nih.gov/nucore/MN908947>) <https://www.nature.com/articles/s41586-020-2008-3>. His P3 lab at Fudan University was later shut down by the government.
4. Bat woman Shi Zhengli's RaTG 13 was fabricated, which is shown by a bunch of scientific evidence (<https://nerdhaspower.weebly.com/ratg13-is-fake.html>)
5. The virus must not be used for developing a vaccine, because if you want to develop a vaccine based on the virus, you would remove its lethal functional parts. SARS Covid-19 was engineered with so many lethal parts.
6. The virus has the recombinant RBD with potent attachment to human ACE2 receptor.
7. The enhanced S-protein has unique Furin Cleavage Site.

Conclusion: SARS COVID-19 is **man-modified and function-enhanced** coronavirus; simply, it is a CCP-made bioweapon.

CCP=Chinese Communist Party

CCP≠ China; CCP ≠ Chinese

CCP lies, world people die

The flag at the top is the flag of New Federal State of China
